EIGHTY YEARS

Alma Mater

On the Southern Plains of Dixie
Neath the sun-kissed sky
Proudly stands our Alma Mater
As the years go by.

We work today for our tomorrow, honor and prevail
Hail to thee our Alma Mater, Baldwin High we hail.

Cherished be our sons forever, Memories sweet shall throng,
Round our hearts, dear Alma Mater,
As we sing this song.

Through the years we've learned to love thee,
Ever we'll be true;
True as stars that shine above thee,
Now we sing of you.

HOMECOMING MAIDS

Nominations were made, votes were counted, and one of the most important steps was taken during the week of Homecoming-- selection of the 2001-2002 Homecoming Court. Everyone anxiously awaited the announcement of the court members from Mr. Salter.

Convertibles and dresses were shown off at the parade around Court House square on October 4- one day before the big Homecoming game against Satsuma. When half-time finally arrived the field was step up, and the band took their positions for the Homecoming presentation. The crowd of fans grew silent as Tim Turpen announced the 2001 Homecoming Queen "...Rebecca Scarborough." Applause could be heard from every direction of the field as last year's queen, Sarae Lambert, crowned the new queen. Before the evening ended, memories that would last a lifetime had been made.

September 11, 2001 began as a normal day for everyone. As the morning unfolded, word of a terrorist attack on the United States reached not only to Baldwin County High School, but to every person in the world. As the World Trade Center fell to the ground, we watched in awestruck horror while thousands of lives passed away before our eyes.

“Today, our fellow citizens, our way of life, our very freedom came under attack in a series of deliberate and deadly acts...

None of us will ever forget this day yet, we go forward to defend freedom and all that is good and just in our world.”

--President Bush

These are quotes from the Senior Class on their initial feelings about the September 11th attacks.

Freshmen Class

**Class
of
2005**

Starting the school year was a little different for the new freshmen. There were many changes, including longer classes, a larger student body, and a more advanced schedule. The end of the first nine weeks has already approached and the freshmen class has experienced the beginning taste of high school life. The first float building was a success and the Homecoming dance was a blast. It looks like the start of an exciting year for the class of 2005!

...Second Time Around...

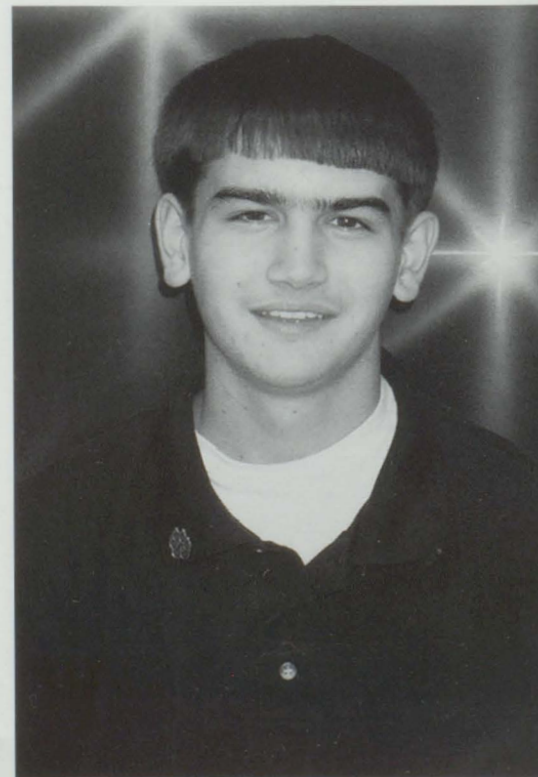

Sophomore Class

**Class
 of
 2004**

The class of 2004 is a great group of girls and guys. When you need them, they are right there to help you out. That is one reason why I, Tim McMorris, enjoy being their class president. The sophomores are great friends, when you get to know them. Even though we did not win the float contest-- that's okay, because we had fun building it, and that's all that counts!

Junior Class

**Class
 of
 2003**

The Junior class of the 2001-2002 school year filled the halls of Baldwin County High School with outstanding school spirit. We, the Junior class, began the year with a bang! At the first pep rally of the school year we won the spirit yell contest and then continued our victories by conquering the Seniors in the Homecoming float contest. Fall came around and we started planning our major class project: Senior Prom. We sold magazines in order to fund raise for the occasion. Our selling extravaganza was a great success, and we were able to give the Seniors a prom they would remember for the rest of their lives. Our Junior year was a year none of us will ever forget. Working on the Homecoming float, preparing for the Senior prom, and fun nights spent together after the football games, left us looking forward to coming back as the Class of 2003!

Someday when we return, a sense of coming home to something innocent will meet us.

Being young and being here- those are the things that will stay with us.

Our high school moment must end but for the next generations it will soon be beginning. Let us hope that their moments should only be as sweet as the ones we will always remember.

With graduation approaching, seniors came face to face with what was yet to come, a new beginning. For underclassmen, it was just another year - - they would be back in the fall to begin again.

However, seniors were heading into a world that was ever-changing; and sometimes the many faces, places, and events seemed like shades of gray... but they went anyway.

As the sun sets on another Baldwin County moment, this year comes to a close. Baldwin County High School has continued its tradition of shaping young minds, and we leave with the knowledge our experiences have taught us. Hopefully we try to capture each moment, for our time spent at Baldwin County High School was pure.

What's Next?

*below...Trojans are # 1...

As the time nears for graduation, many seniors find themselves asking, "What's next?" Decisions are made for future plans such as college, entering the work force, or joining the military. There are many options available. These are extremely important decisions that will affect the rest of their lives.

Being a Tiger fan is something that all students have in common.

Spirit for athletics was just one way we showed Tiger pride.

Pep rallies, games, and parades

bring the students of Baldwin County High School together as one.

VARSITY TEARIN' UP

This year's season was by far one of the best seasons that Baldwin County High School has seen. The new coach was a big surprise and aided in bringing out the best in the players.

This year's players were strong and determined. Their hard work and practice paid

off. On the field, the team came together and played with one common goal -- to win!! In fact, the team won several games this year. The Tigers were undefeated this season until the last game which also became the match-up of the year. Old time rival Daphne High School was our first lost but they did not hold us back from going to play-offs. We began the season with a strong attitude and a mission to win.

"This team has played extremely well together and has accomplished a lot for BCHS.

We hope this program can build on their efforts."

-Coach French

Baldwin County High School will greatly miss its senior football

athletes next year but will look forward to another great season with its returning champions. Go

SERVIN' IT UP

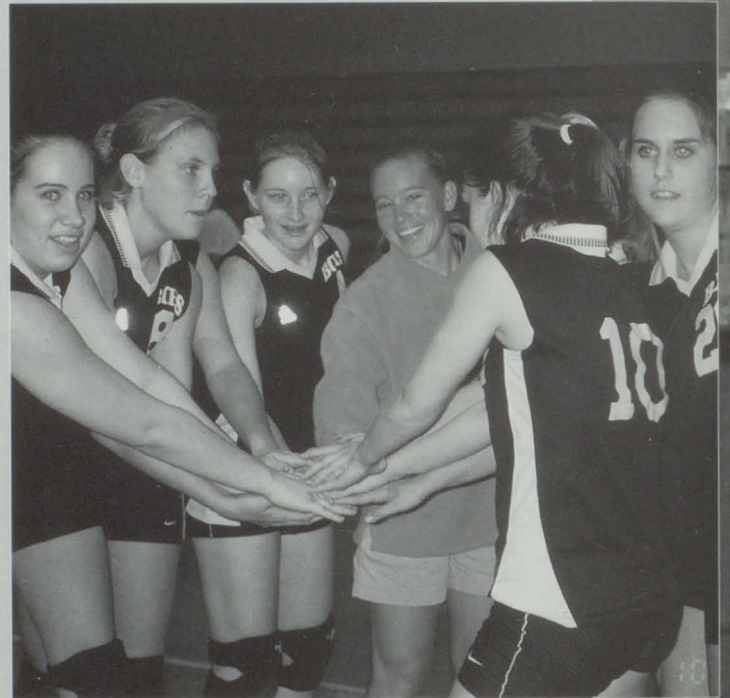

The 2001-2002 Baldwin County High School Varsity Volleyball Team had a season filled with success. This year's volleyball team showed great dedication by always striving for their best. Throughout the season their outstanding teamwork was rewarded with many wins. Four of these victories included big defeats over a major rival, the Daphne Trojans. In addition to big wins over top competitors, the Lady Tigers also advanced to Regional Playoffs. The Lady Tigers will lose two starting seniors at the end of this season. Next year with many returning players, the Lady Tigers look forward to another successful season.

The Sound of Music...

The Beat of The Heart

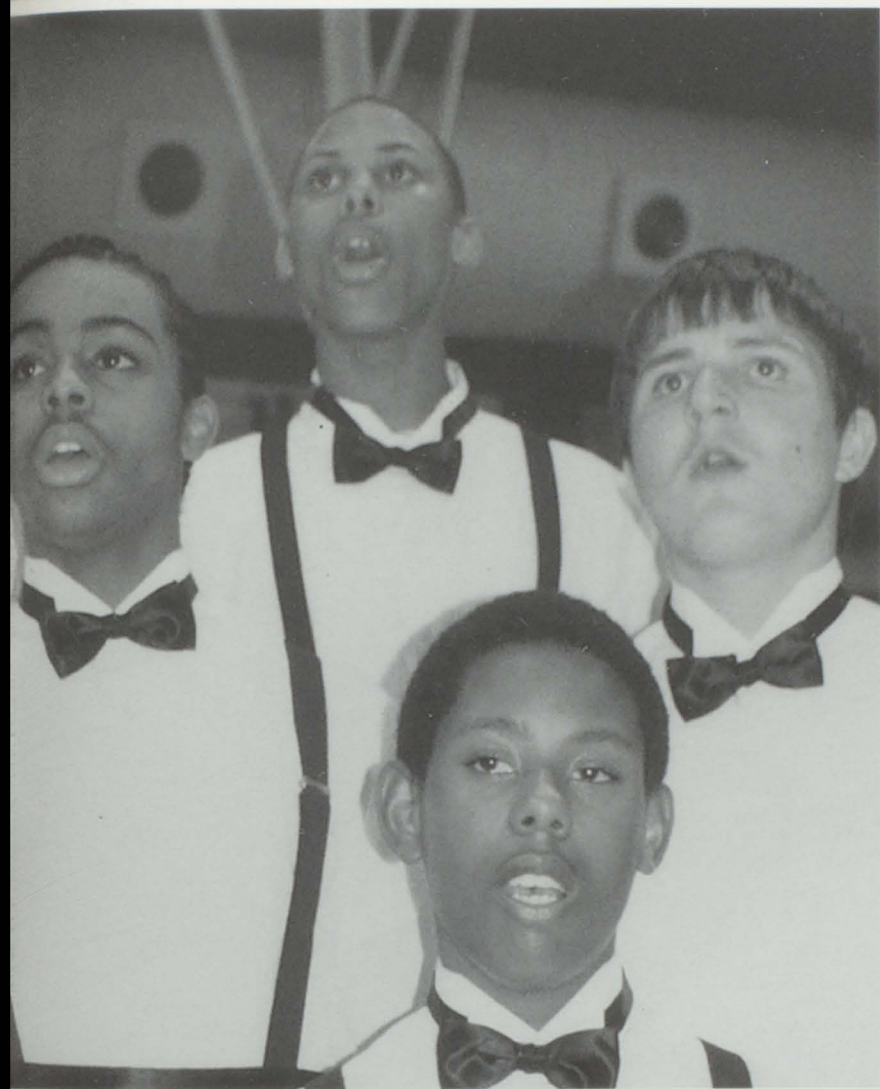

The BCBS Choir is composed of the Women's Choir, the Varsity Singers, and the Concert Choir. The choir participates in numerous school events and many community activities.

This year, the choir sang for the school body, added to the music in the Veteran's Day assembly, and entertained the community at the annual Christmas Fest. Everyone enjoyed their performances.

M teachers of
J Baldwin County High come
C up with exciting projects to
S make
learning fun.
With these
projects
students are taught to strive
to do their best and excell
over others.

The Electives

An Essential Part of Learning...

Electives are an essential part of education because they allow students to get an idea of what the real world is like. A few of the most widely chosen electives at BCHS are parenting, food nutrition, T.V. production, business law, home economics, and technology education. These courses provide important assets to our school such as Tiger TV and bulletin boards.

"Electives are a vital part of learning because they prepare students for the real world and allow them to have fun in the process."

-D. Carpenter

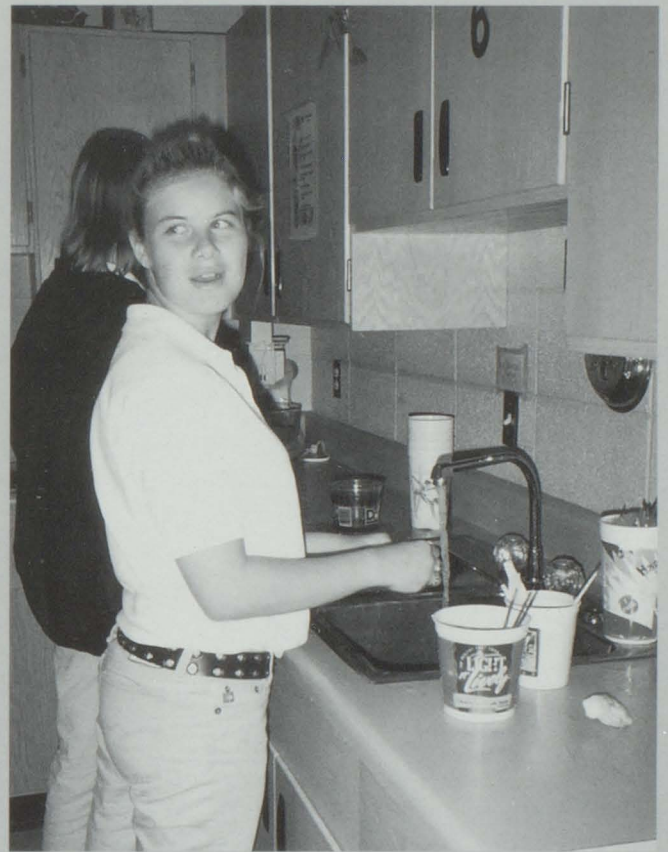

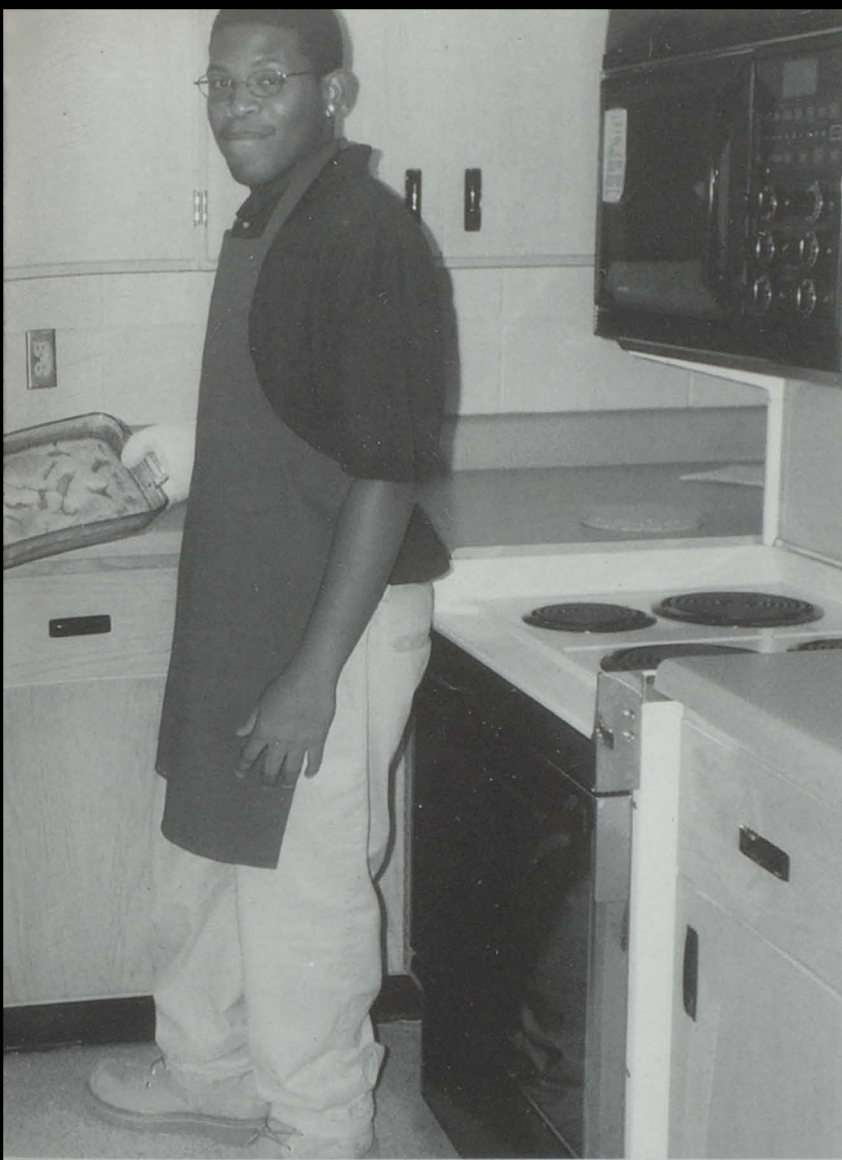

Electives teach responsibility and independence, while allowing students to participate in fun activities. The relaxed atmosphere in the classrooms allow students to express their creativity while learning to work well with others. They provide students with valuable skills that can be used in the future such as cooking, sewing, farming, computer literacy, and parenting.

Right: Lights, Camera, Action! Ben DeWit and Kristen Harrelson work together to prepare a special segment for the Tiger TV morning announcements.

Left: What's Cookin'?? Derek Griffin and Jamarcus Evans show off their fabulous cooking techniques.

Left: Miranda Fields takes a break from typing in the computer lab.

The Arts

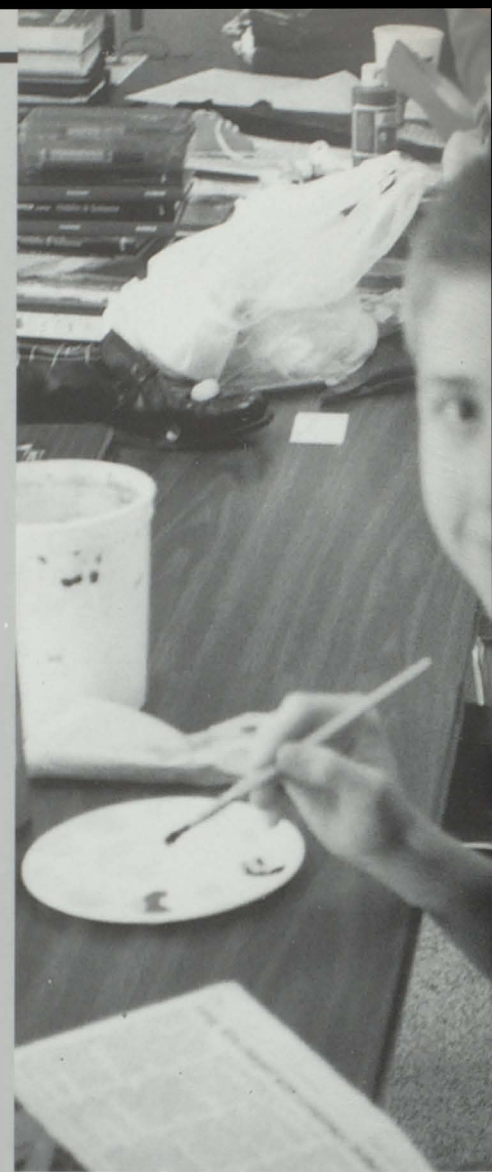

To Creativity and Beyond...

Math, Science, and English are important elements in a high school education. However, it is "the arts" that allows the students to truly express themselves. Art, creative writing, drama, and oral communications are essential in creating a well rounded student. These classes teach students to take their inner feelings and turn them into unique pieces, such as paintings, short stories, plays, and speeches. Students work hard to improve the skills they learn in class,

"I love it when students get deeply involved in their projects and begin to grow as artists as well as people."

-- Mrs. Johnt

giving each project they do a personal flare. Several teachers are able to make their classes enjoyable for all students. Mrs. Johnt and Ms. Childs spend extra time out of their classrooms placing the students' work on display for everyone to see. The participants in these classes are encouraged to try their best at becoming the Writer or Artist of the Week.

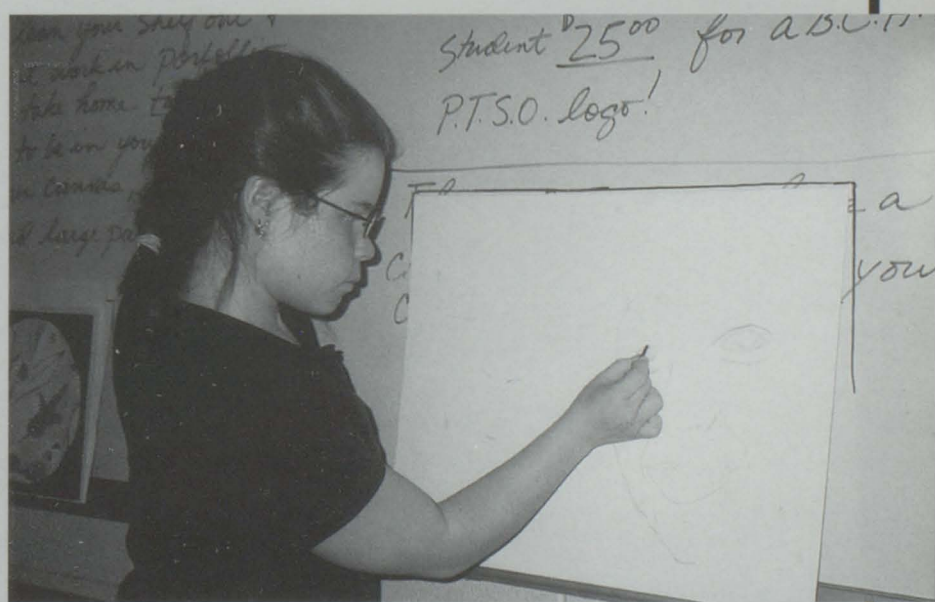

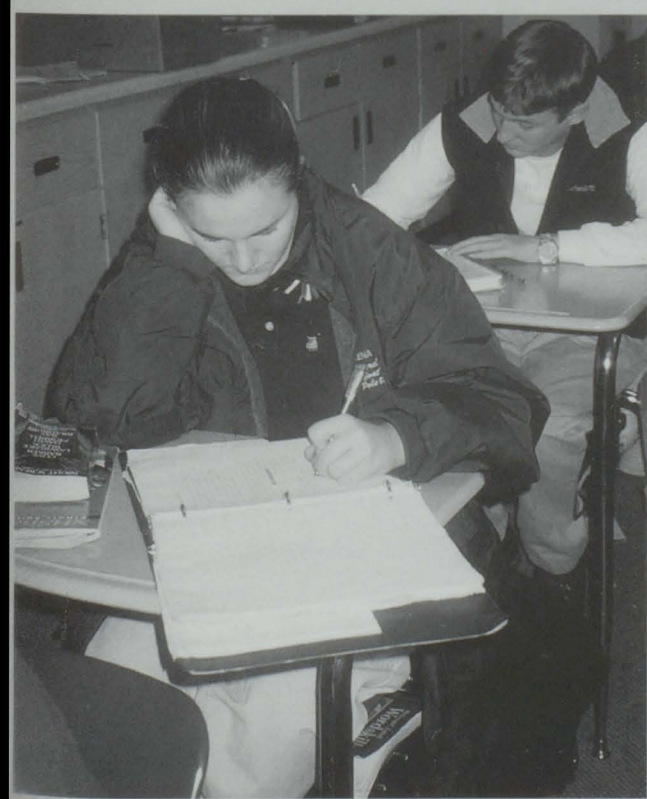

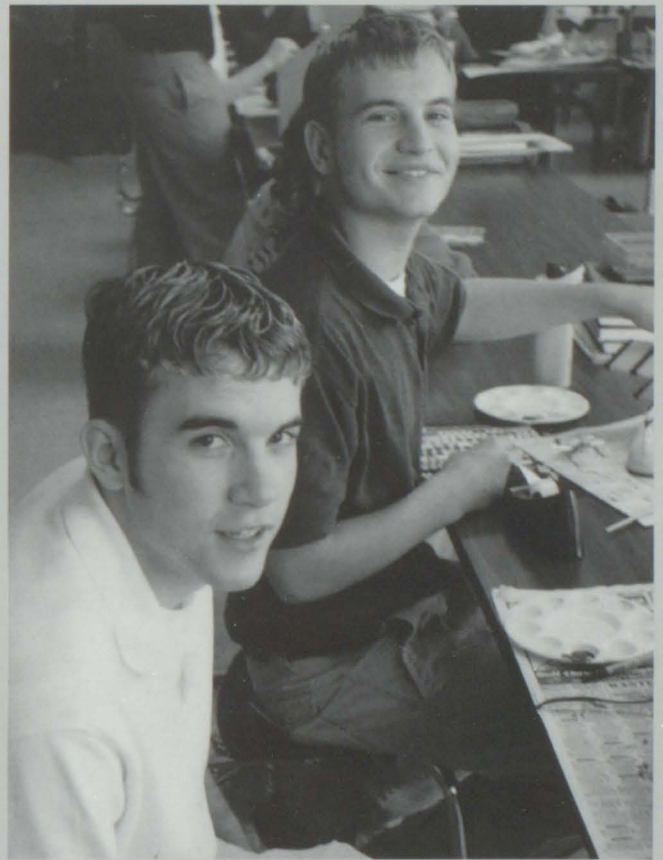

Tiger Trophies...

Below: **Foot Loose...** Matt Myer and Cole Shiver turn ordinary shoes into creative masterpieces under the instruction of Mrs. Joht.

Right: **Roses are red...** In creative writing, students learn literary techniques, such as prose.

The Sciences

The Composition of Life...

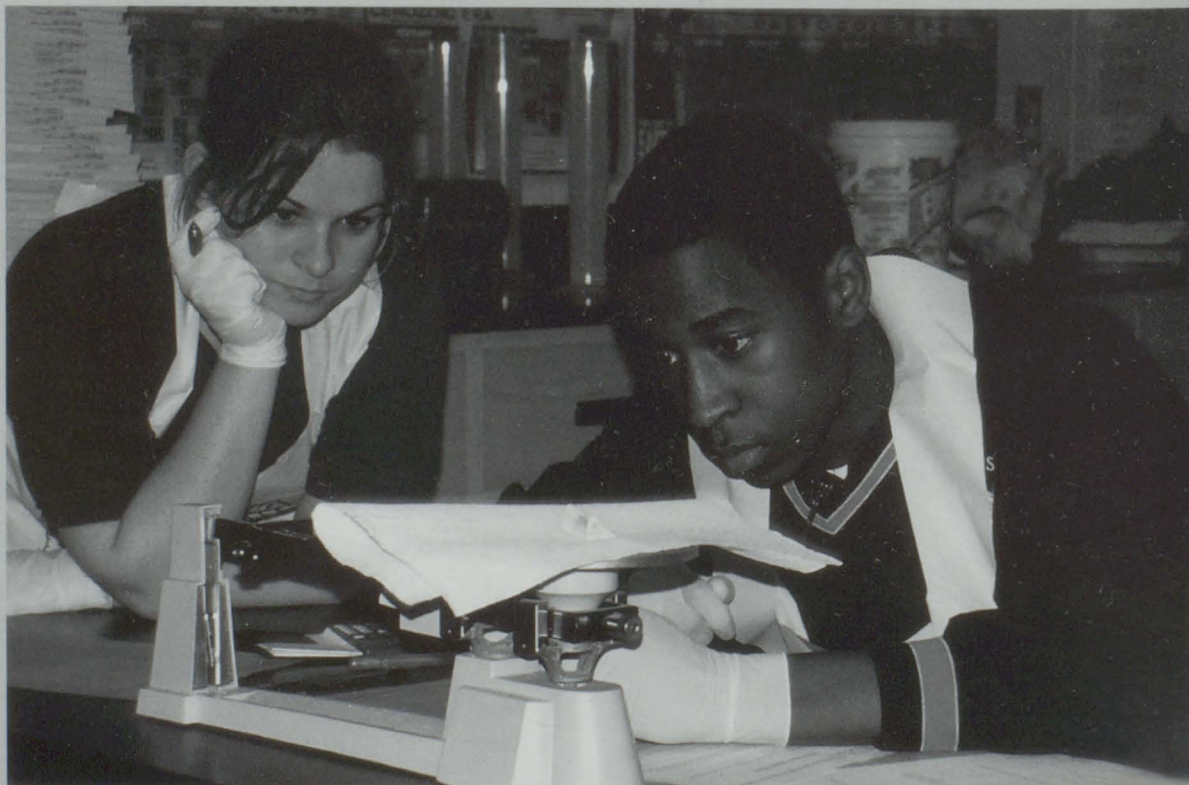

Many have said that science is the study of life. At Baldwin County High School teachers expose students to all aspects of science. Students may take classes in biology, physics, chemistry, human anatomy, and many more choices. With the wide range of knowledge students receive, they are able to apply science to almost every aspect of their daily lives. The world of science is always changing and being updated.

"I enjoy teaching science because it allows students to be hands on with the subject at hand."

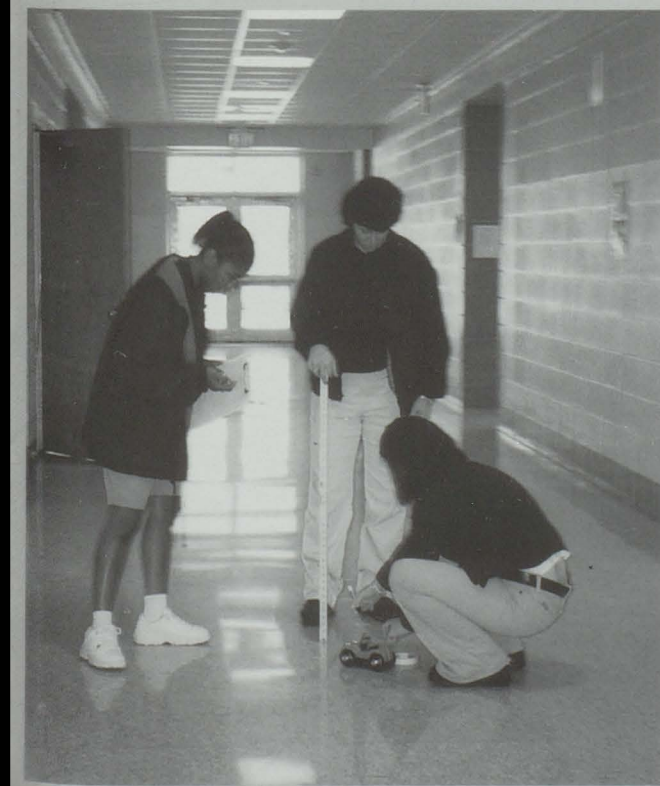

--Judy Bridges

This allows teachers to keep students informed with the most current information available; thus keeping students interested in learning. This makes learning something students enjoy and appreciate. With the combination of interesting subject material and dedicated teachers and students, science can benefit everyone. At BCHS we understand that when everyone puts forth their best efforts, the ultimate goals are achieved.

Precision is the key to great success ... Sheena Byrd and Allen Gilberry know that they must be very precise in their labs for Mrs. Denmark's Human Anatomy class.

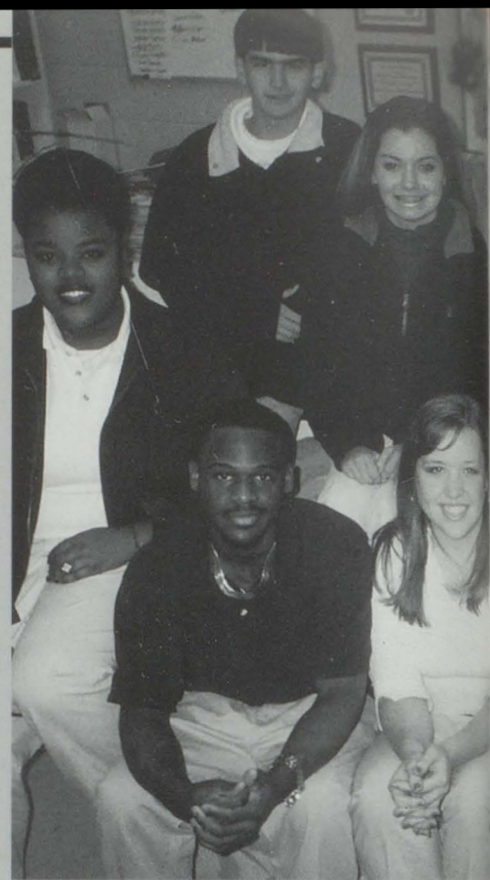

Left: **Far out dude...** Mrs. Steele's Chemistry class shows off their new tie-died shirts that they made for one of their many labs. Yearbook

Behind the Scenes...

This year's Balcoala staff faced many changes ranging from a new sponsor, Ms. Marshall, to up-to-date techniques. To speed up the entire production process, the staff switched from old-fashion, regular pencil and paper to a new computer program, some of it provided by Jim Owens, Jr. Photography. The annual production required

"Yearbook Production has been a challenging and successful adventure this year, but it would never have been possible without an exceptional Balcoala staff."
--Barbara Marshall

patience from the staff. There were moments of tension throughout the year, as the Balcoala staff strived to meet deadlines and plan fundraisers.

The staff was also in charge of the Mardi Gras Ball, which was a great success. At the end of the year, all the stress and worry that the

Balcoala staff endured was worth it.

Student Council

The Student Council association allows the entire student body to stay in touch with the faculty and administration on school related issues. Student Council members are hard workers, with great dedication. The members attend meetings after school to discuss upcoming events. One of the main events Student Council sponsors is Homecoming. Student Council is responsible for the dance, the court, and the entire week of festivities. In addition, this year Student Council sponsored a bonfire during Homecoming week. Also, Student Council sponsored Christmas candy grams, which proved to be a great success. The members of Student Council dedicate many hours in order to get such activities accomplished. The hard work of each Student Council member deserves much recognition. The Student Council organization has accomplished much this year!

"Being the Student Council President is a very responsible position. Although it gets a little stressful at times, it is very rewarding in the end."

The stores, churches, and citizens of the community were a great help to us, as usual.

When asked, they responded by buying ads and sponsoring school

functioned events. Although business this year was not at an all time high, the community still

continued to help. We owe a big thanks to all those who on the following pages pitched in and bought ads. They are the ones who have invested in us, again.

Through the years, I've watched
 you grow,
 My sweet little blue eyed boy
 With a mischievous grin that I love
 so
 As I watch you spread your wings
 My heart is racing, while you take
 flight

Aim high, my son, you'll do just
 fine!
 If you look back and see tears in
 my eyes
 It's just because you fill me with
 pride
 You, my son, have given purpose
 to my life!

When thinking of All-County, one imagines the strongest and best players. The persons who score the most points in a game, the persons who swim the fastest, or the persons who run the quickest. Sometimes it is the person who is not always in the spotlight, who cheers the team on when they lose their faith. When the team is up against the wall and the crowd has lost hope, this person keeps cheering, no matter what. When the team is playing the worst game ever, the person who says "you did your best!" and pats you on the back still lifts the teams' spirits. Where would the Los Angeles Lakers be without Robert Horry's right-on-time three pointers or Bo Jackson's fast-paced scoring to get them out of the hole? The New Jersey Nets' Jason Kidd who shows leadership on and off the court is still crucial to the team's success. So, next time one might think of All-County players without thinking about the person who scores the most points, one might think of the person who is not in the spotlight, the unexpected one for the All-County team.

This is the last year for All-County. Historically, this is very important to our school. We congratulate all past and present students who have won this prestigious award. Even though there will be no more All-County, we know our sportsmen will do the best they can do.
